Russian life Simulator is a small, short but still very fun for the small time you need to complete the game.

it's an ironic game with funny and cool small references to the meme culture around Russia.

the game is quite new and is still developing, so i'll give it some time to fix some bugs and other things that need to be fixed.

*it's a solid 7\10. tri poloski.. 10\10 drank vodka....and sang along. I did end up in jail for not voting Puti\u00f1.. 10\10 would drink again. A terrible game, basically a glorified cookie clicker, never been disappointed spending 47 pence before but there's a first for everything. No more than 10 minutes of gameplay, excluding the videos of Putin which will invariably crash the game. Avoid like the plague. This kind of game is why Steam needs to have stronger filtering and reviewing before games go live. Oh this game is \u2665\u2665\u2665\u2665\u2665iful - Ricardo\10, Putin\10 if they add emoticons.. Fxck you EA
And Fxck you Sims*

This is the best life simulator I've ever seen

How long do I have to play until I get the russian citizenship ?.
For 90 cents I now have a game that I can see Ricardo Milo and dancing Putin anytime I want.

10V10 I bought an extra copy as a gift for a friend and he stopped talking to me.

For real though this is more than a dollar worth of fun just keep in mind it's obviously a joke game.

.
. .
. . .
. . . .

I voted for Ricardo and got thrown in the gulag 10V10

I Danced along with Putin Far longer than I should have 10V10

I now want to invade Finland and the Ukraine 10V10

Real communism hasn't been tried 10V10

Memes are magic 10V10

. Best game ever.

BTW I'm Russian and this is accurate. Reminds me of home.... You Slav You Lose
